HELLO

現代の美人

Welcome to my art book!
This art book is a collection of artists that I use for as inspiration for my my thesis. These artists specialize in character designs and concepts. I wanted to focus on those that use their character to tell a story or set a scene in the artist's world. Going forward with my thesis, I am creating my own world with the drive to strenghten my understanding as an illustrator and expand on the idea of my character's story.
